World Habitat Day

WUF10 was held in Abu Dhabi in 2020. The World Urban Forum brings together policymakers, practitioners, researchers, and civil society leaders to discuss the latest challenges and solutions for making our cities and towns more sustainable, resilient, and inclusive. The theme of WUF10 was "Cities for All: Inclusive and Sustainable Urbanization." The forum aimed to advance the implementation of the New Urban Agenda and the Sustainable Development Goals, and to discuss how cities can contribute to achieving a sustainable future.

Participatory Budgeting is a process that involves citizens in the decision-making process regarding how to spend part of the public budget. It was first implemented in Brazil in the 1970s and has since been adopted by cities around the world. Participatory Budgeting lets citizens propose ideas and decide how to spend part of the public budget. It has been found to improve transparency, accountability, and community engagement in the decision-making process. Participatory Budgeting is being used in Escobedo, Mexico using a
